### Report Description

This report provides "all available details" from the Handler module and summarized information from the Waste Activity Monitoring module for the specified RCRA site. Details reported include basic site identification information; handler universe information; source record information including location and mailing address, contact person and address, NAICs, and regulated waste activities. For Biennial Report source records on or after the 2001 BR cycle, additional information reported includes quantity totals (generated, managed, shipped, received), and the top ten GM forms by quantity generated.

Information reported for the RCRA site may be limited by latest historical information and most recent Biennial Report cycle. The data is sorted by the most recent Received Date.

Note: Some data is suppressed if it is null or blank. See the Reports Library documentation in RCRAInfo Help for additional details.

## Report Description

This report provides a complete listing of evaluation, violation and enforcement activities for each Handler, including all orphan records. Below the Handler ID information, the data is presented in three sections: evaluations, violations and enforcements. Comments, referred to as Notes, are provided in each respective section. Since evaluations are included regardless of whether or not violations are identified, this report also serves as a useful management tool for tracking progress made towards meeting RECAP commitments.
